- Multi-State Payroll Tax Compliance
- W-2c / SSA Reconciliation & Amended Returns (Form 941-X)
- SOP & Knowledge Base Authoring
- Agent Coaching & Training
- Advanced Excel & Payroll Analytics

WORK EXPERIENCE

Intuit

Staff Payroll Tax Analyst & Automation Specialist

Reno, NV

Dec 2018 – Present

Notice Resolution, Payments & Filings

- Worked Federal and multi-state payroll tax notices from intake to closure — investigated the underlying cause, wrote the agency response, submitted supporting documentation, and followed up until each case was confirmed resolved.
- Handled Federal, state, and local payroll tax payments and filings across multiple jurisdictions — tracked deposit schedules, submitted returns on time, and kept accounts in good standing across FICA, FUTA, FITW, and SUI.
- Wrote penalty abatement requests and agency response letters from scratch, pulling together the supporting documentation needed to make a strong case — regularly came away with reduced or waived assessments.
- Helped prepare amended returns (Form 941-X and state equivalents) when corrections were needed — reconciled liabilities back to the original return and handled W-2c prep as part of the broader fix.

SME Coaching & Knowledge Management

- Acted as the team's primary resource for complex payroll tax questions — answered real-time questions via Slack and Zoom, joined agents on difficult cases, and made sure each session left them better equipped to handle similar issues independently.
- Wrote and maintained SOPs and KB articles; spotted recurring QA error patterns and brought corrective action recommendations to leadership.
- Built an AI bot that reads case notes and automatically generates the agency email response for notice cases — cut manual drafting time by 60% and reduced inconsistencies across the team.
- Created a second AI tool to walk agents through payroll tax payment processing and wire transactions step by step — made a noticeable dent in escalations and helped newer staff handle payment inquiries more confidently.

Operations & Process Improvement

- Kept a daily eye on the team's case queue — caught aging cases and stuck holds early, figured out what was blocking them, and brought leadership a clear picture of the problem along with a suggested path forward.
- Built out dashboards in Airtable, QuickBase, and Excel so leadership could see team performance, case volume, and exception trends without having to chase down the data manually.
- Ran end-to-end testing on a new QuickBooks payroll tax system before launch, working through compliance scenarios until we hit 98% accuracy and felt confident it was ready to go live.
- Built a JIRA-connected automation dashboard used by 5 cross-functional teams to track projects in one place — sped up turnaround by 25% and saved the org roughly \$50K a year in manual coordination time.

United States Air Force (Air National Guard)

Operations Manager

Reno, NV

Jun 2013 – Jun 2019

- Designed and implemented a training compliance program with standardized schedules and accountability checkpoints — increased on-time completion by 45% in year one.
- Conducted structured coaching sessions using progress-tracking frameworks; achieved 80% training success rate and 90% goal achievement across supervised personnel.
- Built Excel dashboards to track training compliance, increasing visibility by 35% and cutting reporting time by 25%.
- Managed travel and expense coordination for a team of 10, overseeing itinerary planning, reimbursement processing, and budget adherence across domestic assignments.
- Assisted in managing time and wage administration for up to 10 personnel, including a mix of full-time employees and contractors, ensuring accurate pay tracking and compliance with applicable regulations.

EDUCATION

University of Nevada, Reno

Bachelor of Science in Finance and Economics
